Last updated 18 November 2026

Donor: WFP

Reference: WFP/SSD/2026/024

Location: South Sudan

Deadline: 1 December 2026

Open

Programme purpose

The objective is to expand digital identity management for affected populations, and to improve beneficiary identification, reduce inclusion and exclusion errors, and strengthen emergency preparedness.

Target population and geographic coverage

The groups identified include Affected populations.

Areas covered

- South Sudan.
- Upper Nile.
- Jonglei.
- Northern Bahr el Ghazal.
- Eastern Equatoria.
- Unity.
- Lakes.

Portal location list names South Sudan and these six states.

Planned activities

The programme gives priority to work to collect comprehensive biographic and biometric data at household and individual-member levels and Populate SCOPE through direct digital registration and data importation.

Other priorities

- Digitalize identities in in-kind and new CBT caseloads in line with country context; move away from offline distributions.
- Revisit targeting to reduce inclusion and exclusion errors and caseload inflation; Related activities may identify eligible people before registration.

2027 Open Call for Proposal for the Implementation of Biometric Registration (SCOPE) in Multi-States.

- Coordinating functional units to define data requirements for improved registration planning.
- Establishing strategic communication and sensitization for WFP staff, NGOs, communities and authorities to register or retarget eligible people.
- Work to use SCOPE and related systems for beneficiary verification and authentication during distributions.
- Collaborate with IOM and UNCHR on data alignment and digitized verification and authentication for assistance.
