Overview

Monitoreo de asistencia alimentaria en especie a comunidades de Cabañas, Chalatenango, La Unión, Morazán, San Miguel y Usulután, afectadas por choques climáticos.

Last updated 24 November 2026

Donor: WFP
Location: El Salvador
Deadline: 7 December 2026
Open

Purpose and scope

World Food Programme (WFP) seeks to engage a cooperating partner under a Field-Level Agreement to plan, coordinate and implement field monitoring of WFP in-kind food assistance. The monitoring is intended to verify delivery and results, identify risks and report findings. The underlying intervention is in El Salvador, in selected districts of Cabañas, Chalatenango, La Unión, Morazán, San Miguel and Usulután.

The programme covers 8,650 families affected by climate shocks in the underlying WFP intervention. Each household is to receive approximately 45.6 kg of in-kind food monthly for three months. The selected districts are Dolores, Jutiapa and Victoria in Cabañas; Citalá, Comalapa, La Reina and San Ignacio in Chalatenango; Anamorós, La Unión and Pasaquina; Arambala, Cacaopera, Chilanga, Corinto and Torola; Nuevo Edén de San Juan, San Antonio and Sesori; and Alegría, Mercedes Umaña, Nueva Granada and Santa Elena.

Funding

The three-month duration applies to the underlying household food assistance, not to the partnership agreement. The monitoring engagement is linked to the in-kind food assistance operation and its delivery and results; the stated three months describe the household assistance period.

Each household in the underlying intervention receives approximately 45.6 kg of in-kind food monthly for three months. This describes the food assistance provided to households, rather than an amount of funding for a proposal.

Who can apply

A partner must have a clear link to and strong presence in the target territory or population. It must demonstrate a strong commitment to gender, inclusion, diversity and protection through policies, mechanisms and staff training. The partner must also expressly commit to attending and facilitating planned visits, events and consultations with WFP or the cooperating partner.

A counterpart contribution may be reflected in the proposal financial costs. Proposals without a counterpart contribution are not excluded; proposals that include one are viewed positively.

Priorities

Partners must plan monitoring and apply WFP-approved instruments. They must collect, review, validate and quality-check data, visit distribution points and households, and communicate critical findings. They must prepare periodic reports with conclusions and practical recommendations.

Relevant, proven implementation experience in project areas is required, with a minimum of 2 years. Prior experience in monitoring, social research, food assistance, food security, humanitarian action or development is valued. Related disciplines and prior survey, household interview, community or digital data-collection experience are preferred for enumerators.

MoDA is preferred for enumerators; KoboToolbox or similar digital platforms are acceptable. These preferences accompany the required monitoring activities and experience, and do not replace them.
