## Purpose and scope

WFP's Call for Expression of Interest funds the 2027 WFP South Sudan humanitarian food assistance, early recovery and school feeding response in Pariang and Abeimhnom Counties, Unity State.

## Who can apply

Eligible applicants are national and local NGOs, including community-based organisations, and international NGOs. National NGOs are established and registered in South Sudan.

## Priorities

Geographic prioritisation gives first priority to areas at risk of famine under worst-case scenarios, followed by IPC AFI Phase 4 areas with populations in Phase 5, then IPC AFI Phase 4 areas classified in IPC AMN Phase 5 and successively lower AMN classifications. Within each priority band, the prevalence of IPC Phase 4 populations guides further prioritisation; IPC Phase 3 areas are considered after higher-priority needs have been addressed.

Household targeting prioritises households facing IPC Phase 4 or 5 conditions, considering severe food-consumption gaps, acute nutrition risks, displacement and compounding vulnerabilities. Refugees, internally displaced persons, returnees and vulnerable host communities are included according to assessed need, not displacement status alone, with particular attention to female-headed households and people facing gender-related, disability or protection risks.

The call prioritises continued expansion of mobile money in place of cash or vouchers delivered in hand.
