Location: South Sudan

Deadline: 9 December 2026

Open

Purpose and scope

WFP's call supports famine prevention, life-saving food and nutrition assistance, and early recovery for crisis-affected populations. The programme country is South Sudan, with a geographic focus on Jonglei State, Fangak County, Canal/Pigi Counties and Upper Nile.

Priorities

The call prioritises areas at risk of famine under worst-case scenarios, followed by IPC AFI Phase 4 areas with populations in Phase 5, then IPC AFI Phase 4 areas classified in IPC AMN Phase 5 and successively lower AMN classifications. Within each band, prevalence of IPC Phase 4 populations further informs prioritisation. IPC Phase 3 areas are considered only after higher-priority needs are addressed.

In prioritised counties, precedence goes to households facing IPC Phase 4 or 5 conditions. The call also prioritises consideration of severe food-consumption gaps, acute nutrition risks, displacement and compounding vulnerabilities. Refugees, internally displaced persons, returnees and vulnerable host communities are included according to assessed need, not displacement status alone.

Partners work towards engaging at least 70% of GFA-targeted households in ERA activities.
