Purpose and scope

WFP's 2027 call seeks proposals to manage General food Distribution and the Blanket Supplementary Feeding Programme in Juba County, Central Equatoria State, South Sudan. It supports famine prevention, life-saving food and nutrition assistance, and early recovery for crisis-affected populations.

Priorities

Geographic prioritisation gives first precedence to areas at risk of famine under worst-case scenarios, followed by the stated IPC AFI and IPC AMN priority bands. Within each band, IPC Phase 4 population prevalence guides further prioritisation; IPC Phase 3 is considered after higher-priority needs.

Within prioritised counties, household targeting gives precedence to households facing IPC Phase 4/5, severe food-consumption gaps, acute nutrition risks, displacement and compounding vulnerabilities. Efforts prioritise inclusion of refugees, internally displaced persons, returnees and vulnerable host communities according to assessed need, with particular attention to female-headed households and people facing gender-related, disability or protection risks.

The call prioritises efforts to continue expanding mobile money in place of cash or vouchers delivered in hand.
