Last updated 26 November 2026

Donor: WFP

Reference: WFP/SSD/2026/060

Location: South Sudan

Deadline: 9 December 2026

Open

Purpose and scope

WFP's 2027 Open Call for Proposal funds management of General food Distribution and Blanket Supplementary Feeding Programme in Eastern Equatoria State, Kapoeta North County, South Sudan. It supports famine prevention, life-saving food and nutrition assistance, and early recovery for crisis-affected populations, including measures to improve access to food, prevent malnutrition and strengthen recovery. The listed sectors are Food security and livelihoods and Nutrition.

Priorities

Prioritise areas at risk of famine under worst-case scenarios first, followed by IPC AFI Phase 4 areas with Phase 5 populations, then IPC AFI Phase 4 areas classified IPC AMN Phase 5, and then IPC AFI Phase 4 areas with progressively lower AMN classifications. Within each priority band, use the prevalence of IPC Phase 4 populations to guide further prioritisation. Consider IPC AFI Phase 3 areas after higher-priority needs are addressed, and converge complementary interventions in the same locations before expanding geographic coverage.

In prioritised counties, give precedence to households facing IPC Phase 4 or 5 conditions, considering severe food-consumption gaps, acute nutrition risks, displacement and compounding vulnerabilities. Give particular attention to female-headed households and people facing gender-related, disability or protection risks.
