Purpose and scope

WFP's Call for Expression of Interest for WFP Cooperating Partners covers Unity State; Panyijar Counties, South Sudan. It aims to improve food access and nutrition, prevent malnutrition, deliver assistance safely and accountably, and support household recovery, preparedness, livelihoods and reduced reliance on emergency assistance.

Priorities

Geographic prioritisation gives first priority to areas at risk of famine under worst-case scenarios, followed by IPC AFI Phase 4 areas with populations in Phase 5, then IPC AFI Phase 4 areas classified IPC AMN Phase 5 and those with successively lower AMN classifications. Within each priority band, the prevalence of IPC Phase 4 populations guides further prioritisation. IPC Phase 3 areas are considered after higher-priority needs have been addressed.

Household targeting gives precedence to households facing IPC Phase 4 and 5 conditions, considering severe food-consumption gaps, acute nutrition risks, displacement and compounding vulnerabilities. Refugees, internally displaced persons, returnees and vulnerable host communities are included according to assessed need, not displacement status alone. Particular attention is given to female-headed households and people facing gender-related, disability or protection risks.

WFP will continue expanding mobile money in place of cash or vouchers delivered in hand.
