Overview

Digital Health Innovation Fund Competition II

Last updated 29 November 2026

Donor: Government of Canada Strategic Response Fund (SRF)

Location: Canada

Deadline: 18 December 2026

Open

Purpose and scope

The Digital Health Innovation Fund (DHIF), funded through the Government of Canada's Strategic Response Fund (SRF) and administered by Innovation, Science and Economic Development Canada (ISED), supports projects that use the Digital Health and Discovery Platform (DHDP) to advance research, innovation, clinical or commercialization use cases in Canada.

Who can apply

Academic and research institutions, private companies, public authorities and NGOs, granting agencies, health and research institutions and their foundations are eligible applicants. Eligible projects must leverage DHDP to advance a compelling research, innovation, clinical or commercialization use case.

Priorities

Teams with two or more SMEs receive a higher project-team evaluation score. More than one separate data-providing node and OMOP CDM v5.4 are preferred, but not mandatory.
