Overview

Strategic Innovation Open Call - Cut-off 4

Last updated 29 November 2026

Donor: EIT Urban Mobility
Location: Europe
Deadline: 28 January 2027
Open

Purpose and scope

The Strategic Innovation Open Call is a grant funding call issued by EIT Urban Mobility. It expects European relevance and scalability; a pilot in one country may suffice.

Funding

Projects may run for up to 18 months and must have a minimum 35% co-financing share at project level.

Who can apply

Proposals must include at least 2 independent legal entities established in at least 2 different EU Member States or Horizon Europe-associated countries. The project leader and consortium partners need a valid nine-digit PIC and EIT Urban Mobility Programmes Portal registration; new portal users must complete a Partner Information Form.

Priorities

Consortia should be coherent, manageable and fit for purpose, with partners in defined roles making active contributions and with balanced, justified tasks and budgets. There is no formal upper limit; the typical or recommended size is 4–7 partners.

Strategic Innovation Open Call - Cut-off 4

A portion of the budget is earmarked for proposals with a strong RIS component. Higher co-funding rates are positively considered; large enterprises directly benefiting from project outcomes are encouraged to contribute at a typically approximate 50% co-funding rate.
